'Love life, love learning'

Headteacher Mrs Debbie Allen

As you know this half term our learning experience has been based on a picture book with a very important message, 'Somebody Swallowed Stanley'.

The children started by sorting through a pile of rubbish that appeared in the school hall using their prior knowledge to spot different materials.

In the story, the sea creatures are described before their pictures are revealed. The children in Years 1 and 2 have been discussing this and writing their own riddles. After learning that Stanley was a plastic bag who put the sea creatures in danger, they have learned about plastic pollution before writing their own leaflets about recycling.

All the children have been sorting rubbish into different materials and investigating their properties. They have also carried out investigations on different materials to use to make a suitable roof for 'Teddy's House'.

They have also enjoyed making new paper from old, weaving with a variety of materials and making a display for the hall from bottle tops and other materials.

To combine this learning experience and our next topic of 'Food, Glorious Food' we will be visiting Tuppenny Barn on Monday 10th February, spending some time learning about how we grow, prepare and cook food as well as seeing composting in action. Please remember to send your child with a warm coat and packed lunch. Thank you.

Please Note WSCC have altered the start time.
